After marking sheet go in Transactions -> Scan data

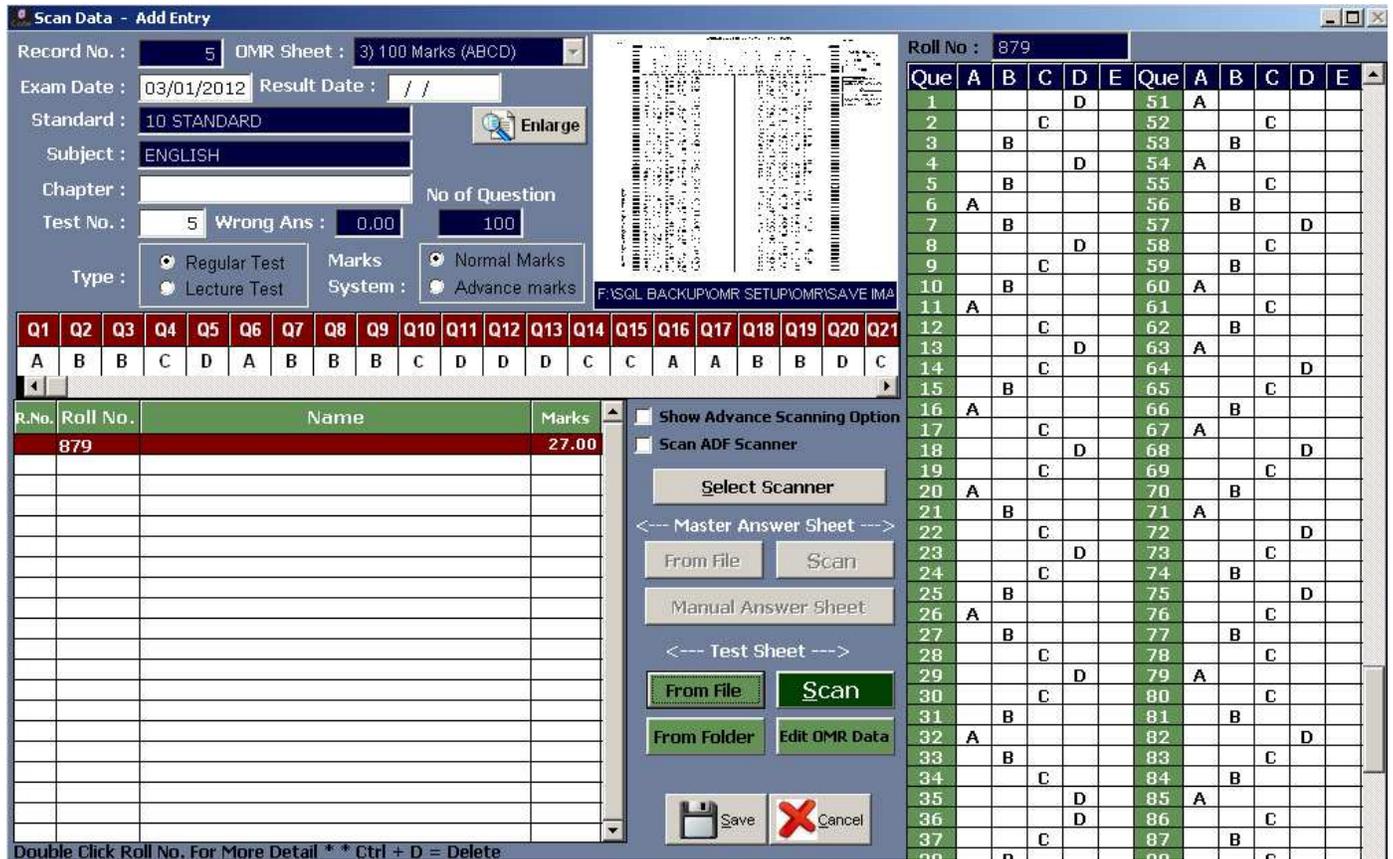

## Normal Marks OMR Sheet Scanning

In scan data entry click ADD button. Select 3<sup>rd</sup> OMR Sheet select standard and subject. Write number of marks you want to scan. First you will have to give Master Answer sheet so that software can compare student sheet with write answer key. If you have Marked master answer sheet then click Red Scan button or else click Pink Manual Answer Sheet button to fill correct answer manually.

***If more than one scanner is attached with computer click select scanner and choose proper scanner.***

On Clicking Manual Answer Sheet button you will get below screen where in you can add right answer key

When you are done entering Master answer sheet Green Scan button will be enabled. Put student sheet in scanner and press Green Scan button. Software will scan student sheet and give scoring. Once you are done scanning all student sheet click save button.

As shown in image bellow if more then one option is selected it will be displayed by letter “x” and none of answer is marked letter “@” will be displayed. If software is unable to scan data letter “?” will be displayed. There are few troubleshoot which you can do if you get “?” letter.

15			D	65	B		
16	B			66	A		
17			D	67			D
18		C		68	B		
19			D	69			D
20		C		70	B		
21	A			71			D
22			D	72	B		
23		C		73			D
24			D	74	B		
25		C		75	X	X	X
26	B			76	@	@	@

## Troubleshoot of Invalid Image Scan Data

1. Check page is scanned in right direction go to "D:\OMR\OUTPUT" folder open scan.tif file if you are scanning from ADF scanner open multi.tif file. Keep page in right direction title on top. ("D:\OMR" is the default path where software is installed if you have installed in some other location open that folder)
2. If page is not straight you will get error its not necessary that page is scanner must be 100% straight little sliding will work but if its too much difference data will not be scanned properly.
3. It is strictly recommended to print OMR sheet on A4 paper and it is also necessary to keep paper at A4 marking in scanner. There is marking for A4 paper in every scanner so keep paper as per that marking.
4. Still if data is not retrieved from image email scan.tif or multi.tif file to [info@omrsoftware.net](mailto:info@omrsoftware.net)

## Advance Marks OMR Sheet Scanning

In advance marks you can give different scoring in single test for e.g. you have a 100 Question test with 3 different kind of scoring. Just click on Advance Marks and a new window as bellow will open.

Total No. Question	Subject	Wrong Ans / Negative Marks	Marks Per Question
50	ENGLISH	0.25	1
25	MATHS	0.50	2
25	SCIENCE	0.50	2
0		0.00	1
0		0.00	1

Here in above example there are 50 Question of subject English 1 marks each with .25 for each wrong answer, 25 Question of subject Maths 2 Marks each with .50 for each wrong answer, 25 Question of subject Science 2 marks for each question with .50 for each wrong answer. After giving criteria as per your need click save now when you scan student sheet you will get marks as per criteria you set earlier. Other all procedure remains same as above.
